## SKILLS

Frontend : HTML, CSS, JS, REACT

Backend : NodeJS

Database : MongoDB

Other : WIX, Github

## WORK EXPERIENCE

### **DATAVERSE INFOTECH** ..... *(January 2024 – April 2024)*

- Successfully completed a full-stack web application development internship using the MERN stack.
- Gained a strong understanding of back-end development, including data storage and retrieval using Node.js and MongoDB.
- Developed a robust front-end interface using React, implementing various functionalities and an admin panel.

## EDUCATION

Degree	Institute	Score
B.E : Information & Technology Engineer	GTU - LJ Institute of Engineering and Technology	8.16 CGPA [2024]
Higher Secondary Certificate	GSHSEB- Nalanda School Godhra	70.00% [2020]
Secondary School Certificate	GSEB - Nalanda School Godhra	87.83% [2018]

## PROJECTS

### **ZNL Software Solutions** ..... *Internship final Project (March 2024)*

- Designed and built a visually appealing and user-friendly website leveraging the MERN stack for ZNL Software Solutions.
- Implemented a responsive design for optimal viewing across various devices.
- Integrated a robust back-end system using Node.js and MongoDB to facilitate efficient content management and user administration.

### **Real Time Headlines** ..... *Internship Project (January 2024)*

- Developed a dynamic web application that fetches and displays real-time news headlines utilising a live API.
- The application ensures instant updates on the webpage, reflecting changes in the API data and providing users with current information.

### **Bangloreautomation business Website** ..... *Freelancing Project on Fiverr (January 2023)*

- Created a user-friendly product website for Bangalore Automation using Wix.com.
- The website effectively showcases their product range with comprehensive descriptions and high-quality images.
- Integrated a user-friendly contact form to streamline communication and facilitate inquiries and sales from potential customers.

### **Services at Fingertips** ..... *GTU Design Engineering Project (June 2022)*

- Contributed to the development of a comprehensive home services platform by designing an intuitive and user-friendly front-end interface.
- Collaborated effectively with the back-end team to ensure seamless integration and functionality.
- Successfully implemented key features like service search, booking, and reviews to enhance the overall user experience.
